1 PURPOSE

Pursuant to section 27 of the Localism Act 2011 and Financial Regulations 2015, Edgcott Parish Council ('the Council') has adopted this Policy to manage risk to its ability to conduct its business lawfully.

This Policy provides the framework within which Council will effectively manage and mitigate risk and how to conduct its administrative arrangements in relation to the requirements of the relevant legislation such as to ensure the timely and efficient compliance with its obligations and to deliver its duties in regard to the expectations of the residents of the Parish.

Council has made every effort to ensure all relevant statutory requirements to which a council is subject are encompassed in this Policy but confirm that, in any event, those requirements apply whether or not they are incorporated herein.

This Policy has been drawn up within the context of the Parish Council's Freedom of Information Policy and its Data Protection Policy and every effort has been made to ensure this Policy is consistent with other Council Policies where relevant.

Definition of Risk Management: Risk is the threat that an event or action will adversely affect an organisation's ability to achieve its objectives and successfully execute its strategies. Risk Management is the process by which risks are identified, evaluated and controlled. It is a key element of the framework of governance together with community focus, structures and processes, standards of conduct and service delivery arrangements.

NOTES:

- Where the word "councillor" is used, unless the context suggests otherwise, the meaning is intended to include non-councillors, with or without voting rights, and council employees.
- A 'co-opted member' is a person who is not an elected member of the Council but who has been co-opted onto the Council, or a committee or sub-committee properly constituted by Council, by a majority of elected Councillors at a properly constituted meeting of Council and who is entitled to vote on any question that falls to be decided at any meeting of Council or that committee or sub-committee.
- A 'meeting' is a properly constituted meeting of the Council, any of its committees, sub-committees, joint committees or joint sub-committees.
- Unless otherwise expressed, a reference to a Member of the Council includes a co-opted member of the Council.
- Where gender specific wording is used, meaning is intended to be gender neutral.

2 SCOPE

Council recognises that risk will be inherent in anything it does. This Policy, therefore, defines those measures required to mitigate all risks, as far as this is practicable, across all activities such as to comply with its legal and regulatory obligations and to maintain its capacity to effectively manage all activities of the Parish Council.

3 POLICY

The Council will review risks on a regular basis and will carry out a risk assessment according to its Risk Assessment Policy for any new undertaking or acquisition. The review will include identification of any unacceptable levels of risk.

Edgcott Parish Council has taken due regard of The Local Councils' Governance and Accountability Guidance which makes the following observations regarding risk management.

1. Risk management is not just about financial management: it is about setting objectives and achieving them in order to deliver high quality public services.

2. The Guidance places emphasis on local councils strengthening their own corporate governance arrangements, improving their stewardship of public funds and providing assurance to taxpayers.
3. It goes on to make the point that Members are ultimately responsible for risk management because risks threaten the achievement of policy objectives. Members should, therefore: -
 - a) take steps to identify key risks facing the Council;
 - b) evaluate the potential consequences to the Council of any risk event so identified;
 - c) decide upon appropriate measures to avoid, reduce or mitigate the risk or its consequences.
4. To identify the risks facing a council, the Guidance recommends beginning by grouping the three main types of decisions that have to be taken into the following areas:
 - (i) Areas where there may be scope to use insurance to help manage risk
 - (ii) Areas where there may be scope to work with others to help manage risk
 - (iii) Areas where there may be need for self-managed risk.
